LiRO - Online Medical History for Pets

Online Web Versión - Veterinary platform

Clinicar records section, with attached files and diagnosys system.

The screenshot shows the 'Historia clínica' (Clinical History) section. On the left, a list of histories is shown with columns for title, date, and status. One history for 'Laika' is selected, showing a photo of a dog, its gender (Canino | mestizo), age (8 años 4 meses), weight (19,00 Kg), and a summary of its clinical findings.

Main Pacient file, with vaccines and antiparasitary visual status feedback

The screenshot shows the main patient file for 'Liro'. It displays basic information (Canino | Akita Inu, Hembra | Esterilizado, 6 años), vaccination status (Vacunas), external antiparasitics (Antiparasitarios Externos), internal antiparasitics (Antiparasitarios Internos), and a link to the clinical history.

Client search system, with easy links to patients and visual feedback

The screenshot shows the client search system. A search bar at the top finds 'javier'. Below it, a list of clients is shown with their names, emails, and DNI numbers. Each client entry includes a small icon representing a pet.

Agenda, add new veterinary's appointment flow

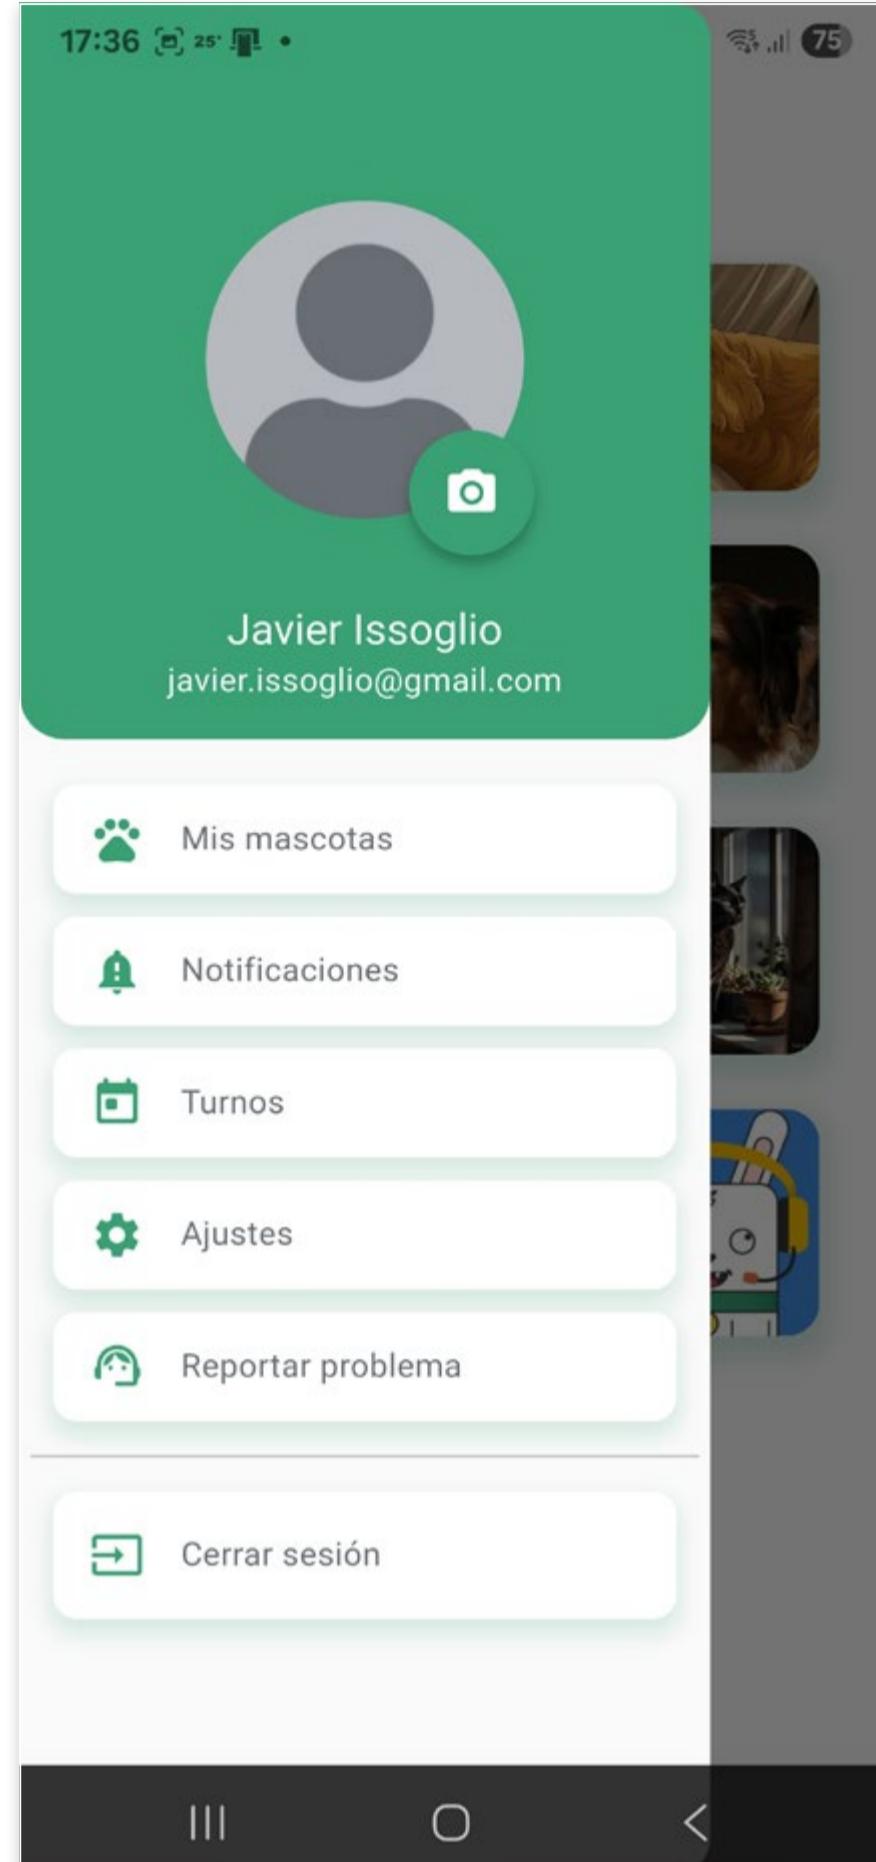

The screenshot shows the 'Agenda' (Schedule) screen. A modal window titled 'Liro | Agendar turno' (Schedule Appointment) is open, prompting the user to enter details like title, date, time, duration, and description. The background shows a calendar for September 10, 2025.

Agenda, with push notification for client's.

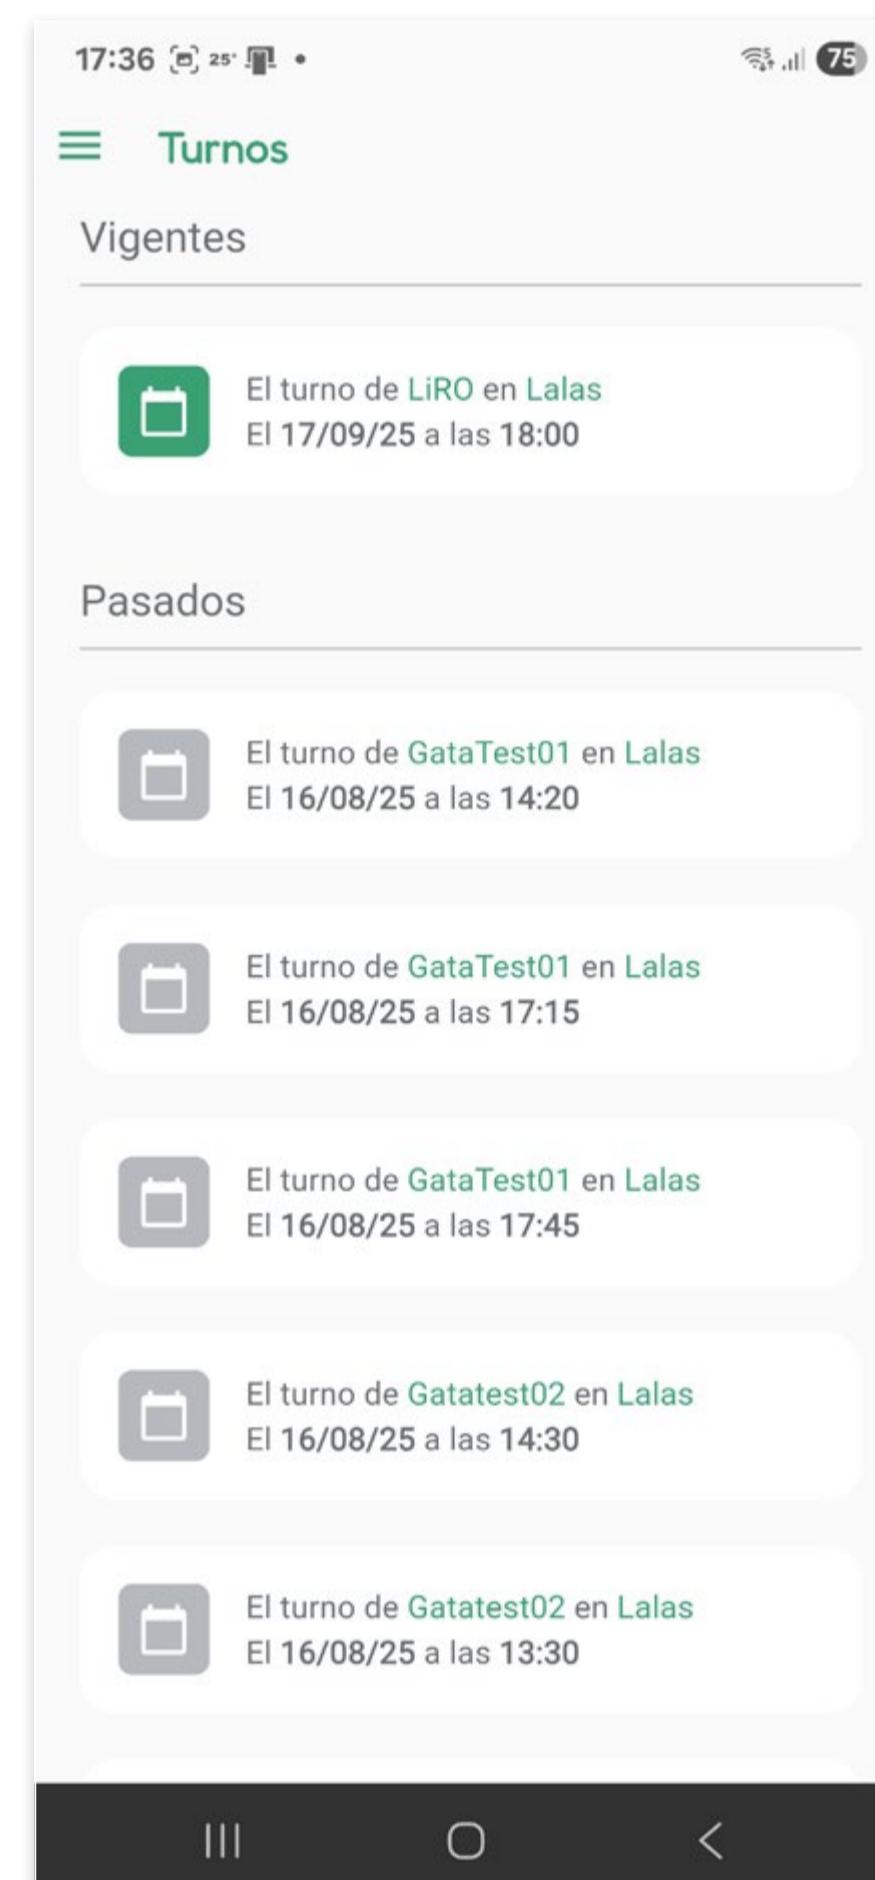

The screenshot shows the agenda screen again, but now with a confirmation message: 'Listo!' (Ready!). It states that 'Liro' has been scheduled for the 17/09/2025 at 18:00 hours, and 'Isoglio Javier' will receive a notification via app. A small cartoon rabbit icon is shown holding a calendar.
